UNHRC Resolution: More Countries against US Resolution - FM G.L. Peiris

External Affairs Minister Professor G.L. Peiris said that the outcome of the vote on the U.S sponsored resolution at the UN Human Rights Commission reflects that more countries are against the U.S at the Human Rights Council in Geneva. He said the countries voted in favour of the 'unethical' resolution because they could not reject US pressure for economic reasons. The External Affairs Minister said the international community knowing that they cannot bring about a regime change in the country by means of democratic means, was attempting to achieve their objectives through external means with the support of opposition and other inimical forces in Sri Lanka.

Rajapaksa Family to Blame for Sri Lanka's Plight - UNP

The UNP has repeatedly called on the regime to address the human rights challenges facing this country with the credibility and seriousness they deserve. The UNP has repeatedly extended its support to address these challenges and urged that by restoring public faith in the rule of law and independence of the judiciary, the Government can secure a degree of credibility for domestic inquiries into allegations against the country and its armed forces. We have urged the regime to reverse the draconian 18th Amendment to the constitution and restore the 17th Amendment that sets up independent institutions. We have urged the Government to uphold media freedom, protect the people's right to information, stop the intimidation and harassment of dissidents and political opponents and prevent arbitrary arrest and killings during democratic civilian protest. UNHRC Sri Lanka Resolution: Diaspora Disappointed and Hopes UN Security Council will take Action

We welcome the establishment of an international investigative mechanism to establish the facts and circumstances pertaining to "serious violations and abuses of human rights and related crimes" committed in the island of Sri Lanka. The UN Human Rights Council adopted Resolution A/HRC/25/L.1/Rev.1 on March 27, 2014, which paves the way for a comprehensive international investigation. We urge that the investigation should cover the period prior to, during and after the end of the armed conflict in 2009.
